Department of Transport

PPE PROCUREMENT SUBMISSION

The Department of Transport hereby publishes its procurement information related to COVID-19 pandemic. The Department followed all the available prescripts by the National Treasury in the COVID-19 procurement processes and all this information contained below has been submitted to the Auditor General for Audit purposes.

Quotations were sourced in line with the provisions of the relevant Treasury Instructions and a process of a multiple award approach was utilized to meet the necessary volumes requested in the distribution for Personal Protective Equipment (PPE) and Wear. The Department was required to buy the products for the members of the public and the public transport sector across all the 9 provinces and delivered these to all nine provinces.

There was no deviation made on the standard Emergency Procurement Prescripts. Quotations were sourced from multiple companies, evaluated in terms of normal procurement prescripts relating to CSD registration, tax compliance, etc, and awarded as a multiple award to curb cost. There has been full compliance with the National Treasury Prescripts in terms of National Treasury Instruction Note Nr. 3 of 2016/2017 Section 8.1 and 8.2.

Companies first had to comply with prescribed procurement processes, including registration on CSD and tax compliance. Qualified bidders were then evaluated on price, per specific item. Only companies that quoted prices below those in the Price Schedule approved by the National Treasury were appointed.
