Welcome to the Central Supplier Database for South African government.

The Central Supplier Database maintains a database of organisations, institutions and individuals who can provide goods and services to government. The CSD will serve as the single source of key supplier information for organs of state from 01 April 2016 providing consolidated, accurate, up-to-date, complete and verified supplier information to procuring organs of state.

Prospective suppliers interested in pursuing opportunities within the South African government are encouraged to self-register on the Central Supplier Database. This self-registration application represents an expression of interest from the supplier to conduct business with the South African government. Once submitted, your details will be assessed for inclusion on the Central Supplier Database.

Interim Parallel Registration Process

Interim Parallel Registration Process

Interim Benefits/ Reduced administrative burden

Supplier only captures registration information once (quality measures applied to ensure complete, accurate and up-to-date information) accessible by all spheres of government

In-process electronic verification (i.e. tax, business registration and bank account check-digit and branch information) and in-process member/ director detail obtainment - no paper copies required = reduced fraud

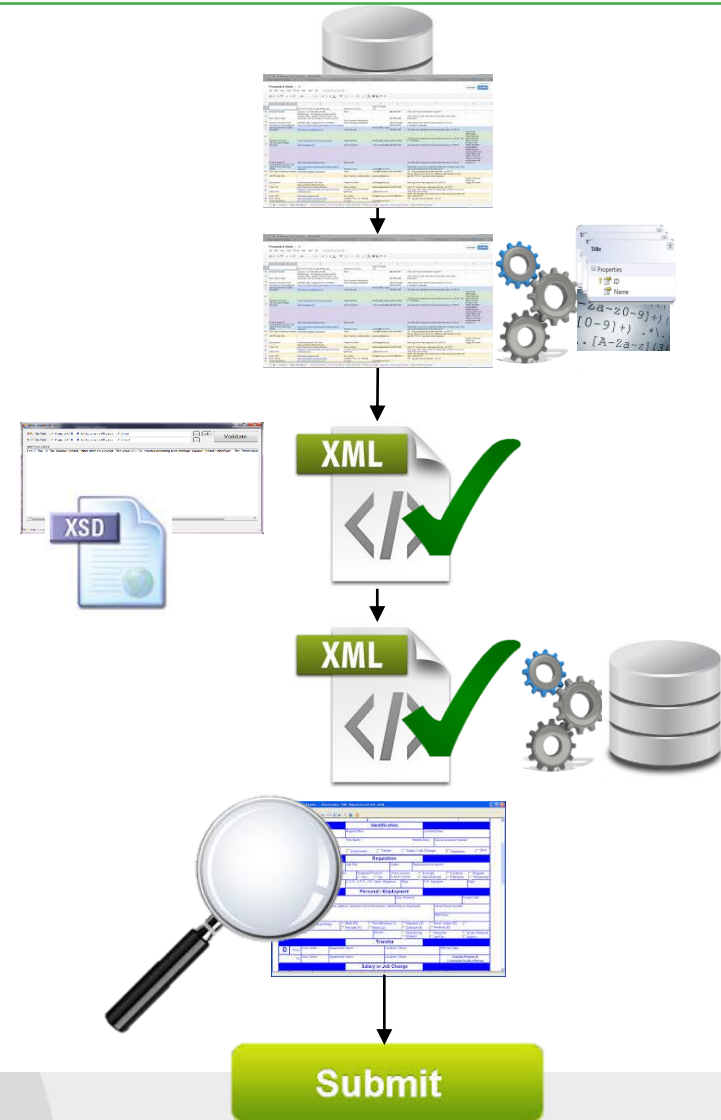

Data Preparation and Conversion Overview

Considerations

- Initial data conversion coverage (National & Provincial)
- Subsequent data conversion criteria (i.e. Unique Sector, unique suppliers)
- Data Preparation Approach (i.e. minimum required fields; clean-up effort alignment across government institutions)
- Data Conversion Approach (i.e. Data Mapping; Download and Transformation Programs; Data Validation; Upload Programs)
- Data Conversion Testing Strategy (i.e. record counts, hash totals)
- Data Conversion Implementation Strategy

Data Preparation and Conversion Overview

- Export supplier data from existing systems
- Prepare supplier data
 - reference standard CSD reference data
 - reformat to conform to CSD data format standards
- Package data into an XML file
- Validate the XML file schema
- Update as required
- Submit XML file to CSD for processing
- File is processed by CSD
 - Re-validated
 - Business rules checked
 - Pre-loaded into CSD registration/add page
 - Result file produced
- User created for each supplier as separate batch
- Supplier review pre-loaded details in CSD
- Supplier submits details

Business/SCM Break Away Session

Data Preparation Approach

- The purpose of supplier data preparation is to convert quality supplier data into the CSD
- Apply the following criteria during data preparation:
 - Ensure suppliers are in an authorised status (i.e. manually vetted) and actively in use;
 - Ensure supplier information is up to date;
 - Ensure the fields which are mandatory on the central supplier database are complete
 - Ensure no duplicate suppliers exist; and
 - The audit information of all suppliers should be retained by organs of state for record purposes.

Data Preparation – Lessons Learned

- Understand that it is an iterative process – SCM vs. Technical
- Understand from technical team which records can be converted and which ones not
- If record can not be converted, determine if outstanding information should be obtained in order to convert the record
- Determine if there is sufficient capacity to contact suppliers, capture updated supplier information etc.
- Don't underestimate the effort involved, start asap!
- Focus campaign on key supplier information gap(s) e.g. email address and cellphone number
- Data conversion is aimed at converting minimum supplier information in order to create a supplier request whereby supplier can update information and submit
- If supplier information coverage is low, consider the ease of supplier self-registration vs. capturing supplier information

Interim Parallel Registration Process

Interim Benefits/ Reduced administrative burden

Supplier only captures registration information once (quality measures applied to ensure complete, accurate and up-to-date information) accessible by all spheres of government

In-process electronic verification (i.e. tax, business registration and bank account check-digit and branch information) and in-process member/ director detail obtainment - no paper copies required = reduced fraud

National Treasury Instruction No X Of 2014/2015

PURPOSE

The purpose of this instruction is to prescribe:

Mandatory **National Central Supplier Database (NCSD)** for **the registration of prospective suppliers** to source price quotations by Accounting Officers (AOs) of all departments and constitutional institutions and Accounting Authorities (AAs) of public entities listed in Schedule 2 and 3 to the Public Finance Management Act (PFMA), 1999 (Act No. 1 of 1999); and

Verification of the following key information for bids received:

- a) Business registration, including details of directorship and membership;
- b) Bank account holder information;**
- c) In the service of the state status;**
- d) Tax compliance status;
- e) Identity number;
- f) B-BBEE status level; and**
- g) Tender defaulting and restriction status.

NB: Bank account holder information, in the service of the state status and B-BBEE status level would only be verified through the NCSD from 1 April 2016 and institutions are required to manually verify this information during the transitional period.

Bids: includes price quotations, advertised competitive bids, limited bids and proposals.

Transitional period: means a period from 1 September 2015 to 31 March 2016

ESTABLISHMENT OF CENTRAL SUPPLIER DATABASE

In order to give effect to the mandatory requirements of this instruction:
AOs and AAs are required to **invite and accept price quotations from a list of prospective suppliers listed on the NCSD** up to a threshold value of R 500 000; and

Verify prospective suppliers' key information on the NCSD.

If it is not possible to obtain price quotations from the list of prospective suppliers listed on the NCSD, **the reasons should be recorded and approved by the accounting officer / authority or his / her delegate.**

From **1 April 2016**, institutions may not award any bid to a supplier who is not registered on the NCSD.

National Treasury Instruction No X Of 2014/2015

(continued...)

TRANSITIONAL PERIOD AND THE PERIOD THEREAFTER

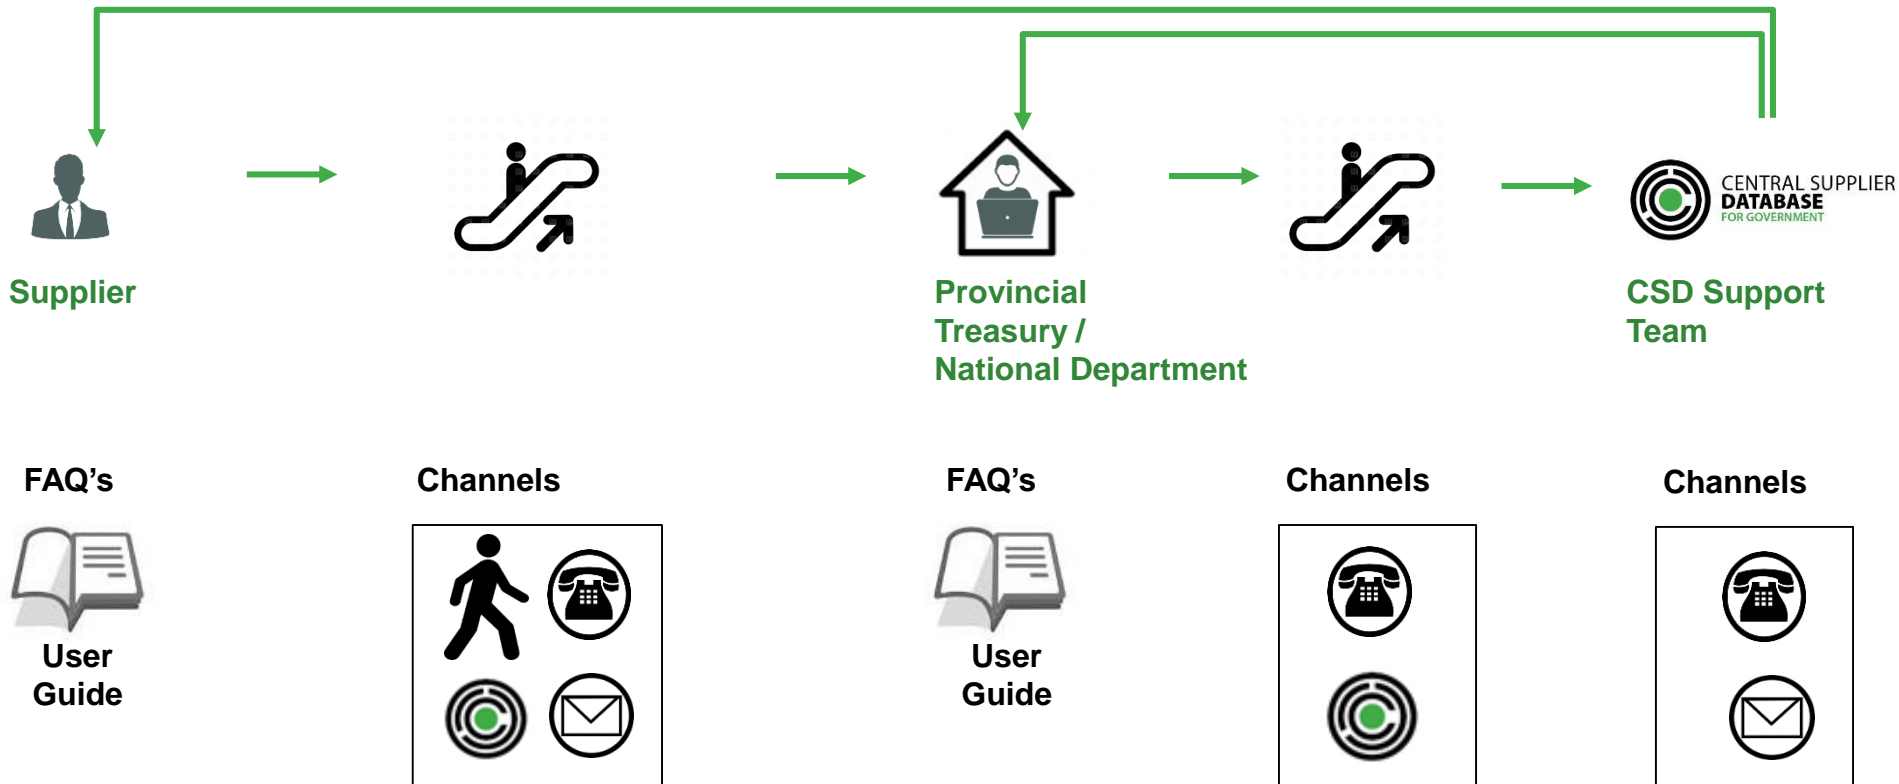

- The period from **1 September 2015** to **31 March 2016** is the transitional period.
- During the transitional period, Institutions must invite and ***accept price quotations from their own established list of prospective suppliers*** and only ***utilise the NCSD for verification of key information***.
- After the ***lapsing of the transitional period***, institutions are ***compelled*** to ***only invite*** and ***accept quotations*** from a list of prospective suppliers listed in the NCSD.
- From 1 April 2016, institutions that have procured computerised systems to manage their database of prospective suppliers ***may not extend such computerised systems or institute new computerised systems*** for managing their list of prospective suppliers.
- Computerised systems that would still be operational at the effective date of this instruction ***may be used up until such contracts lapse***.
- The computerised systems referred to above may be utilised within or outside the transitional period. ***Institutions must verify key information of prospective suppliers during this period through NCSD.***
- During the transitional period, institutions are required to obtain from a prospective supplier a **supplier number** and **Supplier Registration Security Code** to verify a prospective supplier's key information on the NCSD.

CSD Information Pack

CSD information pack contains information on the following:

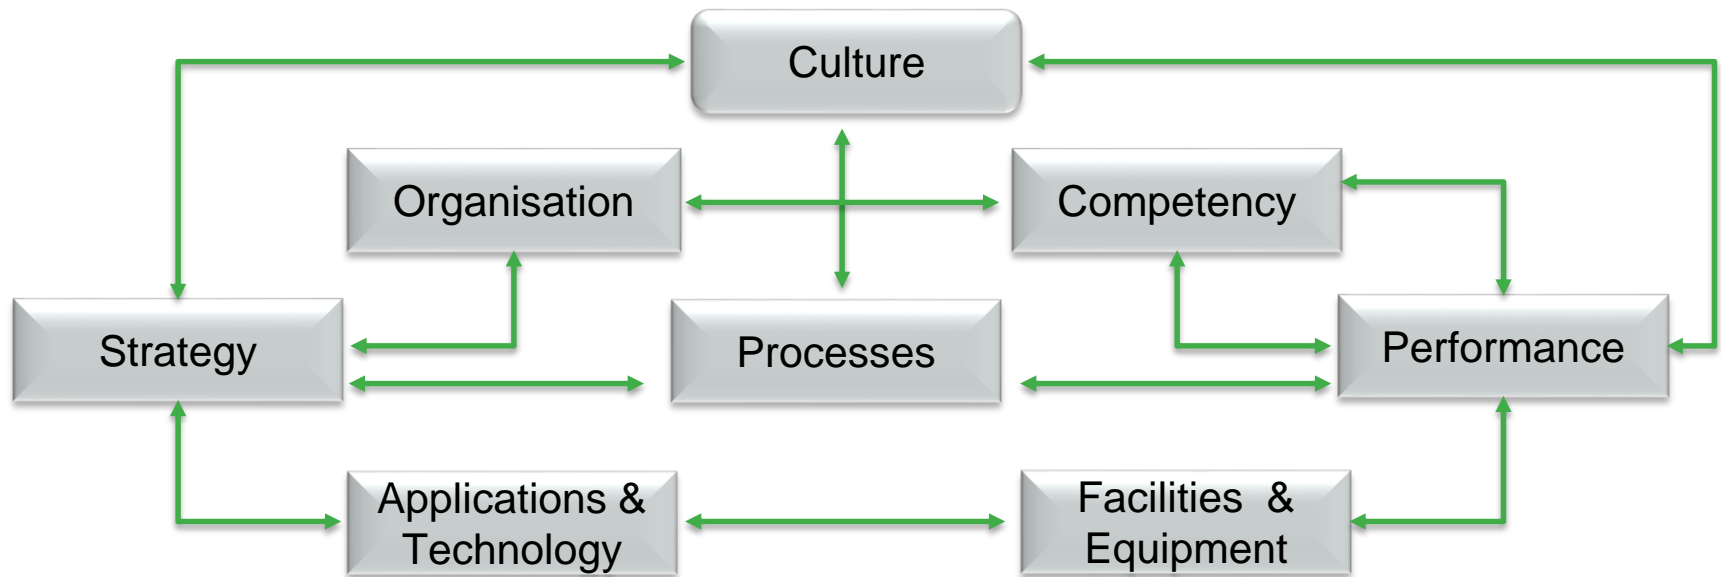

- The objectives of the CSD Change Management approach;
- High level stakeholder engagement and communication timeline;
- Guidelines on how to use the CSD information pack;
- Fact sheets f(government and suppliers)
- FAQs (internal and supplier)
- Email campaign

CSD Support Approach

Checklist and elements considered during implementation

The checklist covers all areas prevalent to the implementation of the CSD application and will ensure, if all criteria are met, a successful implementation of CSD in a particular Province.

Checklist and elements considered during implementation

- **Culture:** Behavior of people utilising the CSD application will change e.g. Suppliers will self-register and will maintain their own information on the CSD, and therefore need to be more pro-active in ensuring compliance, from paper intensive supporting documentation to electronic verification; Provincial Treasury will initially act as first point of contact to all Suppliers in the Province;
- **Organisation:** How organisational structures and personnel roles will be affected by the implementation of the CSD application;
- **Competency:** Knowledge and skills of the people utilising and supporting the CSD application;
- **Strategy:** The impact CSD will have on modernizing the Supply Change Management (SCM) landscape;
- **Processes:** The impact of processes affected by the implementation of the CSD application;
- **Performance:** Performance is expected to improve as CSD will significantly reduce the administrative burden for business and SCM practitioners;
- **Application and Technology:** The impact of the software to be implemented (CSD application); and
- **Facilities & Equipment:** The infrastructure required to ensure that the CSD is operational.

Training Approach

- A Train-the-Trainer approach will be adopted
- The goal of the train-the-trainer process is to provide identified trainers the background and practical experience to provide assisted supplier self-registration to suppliers as well as 1st line support
- During training, the trainers will receive hands-on training, a user guide for assisted supplier self-registration as well FAQs
