Dear Colleague,

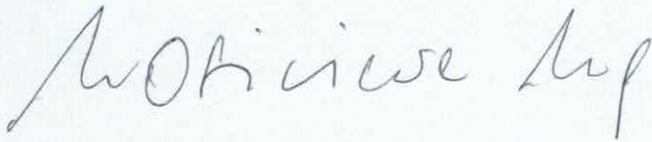

#### **REPORT: PROCUREMENT OF PPE'S UNDER COVID-19 PANDEMIC**

##### Appendix A: DOD PPE Procurement during the Period of the Covid-19 Pandemic

1. The letter received from the Presidency dated 05 August 2020 requested the names of companies and amounts of tenders and contracts that have been awarded from the beginning of the COVID-19 State of Disaster to date.
2. As early as 22 March 2020, the DoD started procurement in order to support all activities linked to combating of COVID-19. Lockdown level 5 made it very difficult to access PPE's and other required medical supplies. This situation led to high prices by SA markets surpassing even prescribed National Treasury (NT) prices. Therefore, there were times where the DoD would procure PPE's at high prices. As the markets opened under lockdown level 3, prices dropped and our procurement units could negotiate competitive prices.
3. It should be mentioned that the communication of Instructions from the National Treasury presented challenges in the procurement execution process. The instructions were received out of sequence and in many cases a previous instruction was not received by the time a later instruction was distributed. This hampered price negotiations and made compliance with the price regulations impractical.

**REPORT: PROCUREMENT OF PPE'S UNDER COVID-19 PANDEMIC**

4. Attached is the list of Supplier names, values and quantities of PPE's that were procured by the Department of Defence.
5. For your consideration.
